Allowance

1. The following is an examiner's statement of reasons for allowance:

Applicant's amended claims and corresponding Arguments/Remarks dated 05/04/2009 detailing the significance of the amended claims over the prior art of record are deemed persuasive and overcome the prior art of record.

Upon an updated search, further art was found, but failed to meet amended claims, whether alone or in combination with the prior art.

Sugiyama teaches determining whether a transport stream was PSIP or non-PSIP, but failed to conclude that a channel was MPEG compliant based exclusively upon the determination that the channel is not PSIP compliant. It also failed to teach corresponding data stored in no more than exactly three lookup tables.

The application is allowable based on the reasons above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Cited Prior Art

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Sugiyama discloses multiple tuners and determining which of the conflicting programs are to be recorded based on priority or frequency of broadcasting occurrence in (US 6,313,886).
